

SISTEMI DI RIPARAZIONE PLASTICHE / PLASTIC REPAIR SYSTEM

HOT AIR

Cod. WELDER/05

CARATTERISTICHE TECNICHE | TECHNICAL FEATURES

		P				
16 Amp	230 V / 240, 1 Ph, 50/60 Hz	320 W	3 kg	130 cm.	100 cm.	16x15x25h cm.

Hot Air consente di effettuare saldature sulla plastica grazie ad un getto di aria calda che fonde insieme le plastiche da saldare. Pratica e maneggevole è dotata di regolatore di flusso e di display per il controllo della temperatura.

Hot Air allows you to carry out plastic weld using a jet of hot air that fuses the plastics being welded together. Practical and easy to handle, it is fitted with a flow regulator and a display for the temperature control.
