

One Lift for Double Solutions

Very versatile:

the same lift can be flush or floor mounted

Easy installation:

easy setting up of pit

Wide ranging applications:

suitable for different operations on various types of vehicle

The new lift geometry simplifies the flush mounting pit construction. **Lifts with big platforms,** structured and designed for maximum stability also when loaded with large vehicles.

Ramps kit.

All lifts are supplied for recessed installation. The drive on ramp kit enables to convert the lift from flush mounted to floor version.

NEW

SUSPENDED RAMPS - 2000 mm

S600NA21

S600NA20

Open flush mounting for turntables.

Edge-free platforms that allow the turntables to be positioned over the entire surface of the platform width. Ideal when working on vehicles with narrow track.

Optimal sliding of jacking beam.

Pre-installed galvanised guide on the inner side of the platform, which allows fast and smooth sliding of the jacking beam.

Large wheel stop for high working safety.

Integrated wheel free lift with levelling system to ensure a completely flat working surface.

Pre-drilled platform for Ravaglioli 3D wheel alignment measuring heads brackets housing. (For .2 and .5 models only).

Greater lifting height.

PATENTED

The hydraulic synchronisation of the platform movements is independent of the load distribution, and is guaranteed by a **patented hydraulic synchronisation device**.

All pivoting points are equipped with maintenance free **self lubricating bushings**.

Base plates with levelling system for an easy installation.

Mechanical locking device with automatic engagement and pneumatic release, ensuring **maximum safety** when lift is in parking position.

The new lift geometry simplifies the flush mounting pit construction.

Lifts with flat platforms.

Lifts with big platforms, up to 5.5 m. length, structured and designed for maximum stability also when loaded with large vehicles.

Wheel alignment lifts.

Platforms for total wheel alignment with front housing for turn tables and rear side slip plates.

3

Alignment lifts with built in play detector.

Platforms for total alignment with front seats for turntables, rear rocking surfaces and play detector.

.5

Plate with embossed surface to prevent plate-wheel sliding.

RAV 640N.3 - RAV 640N.4
4 movement play detector.

RAV650N.5 - RAV650N.6
8+4 movement play detector (8 movement play detector, 2014/45EU compliant).

Play detector torch

- Led technology
- Light weight
- Ergonomic control

4

Lifts with built in play detector.
